

COLOR PALETTE

COL

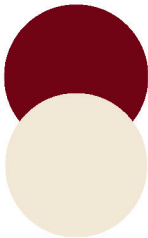

PRIMARY

#790C19

#F3E8D7

The primary colours will make up the logo. These are also the only two colours that will appear in the full colour logo. The Rustic Red will always be the dominant colour.

SECONDARY

#DABC92

#A58B72

#4B3428

#4B3428

#D4AF37

#BA082C

This palette will predominantly be used to blend with the primary colours. Preferably, secondary colours should not be used in isolation of the primary colours. Ideal applications of the secondary colours can be for sub-headings, pull quotes, tables, data visualisation, icons, supplementary branded collateral and corporate clothing. Subtle tints of these colours are allowed with creative discretion.

ACCENT

#9A7D43

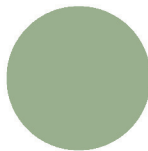

#C6A46A

#FAF6F0

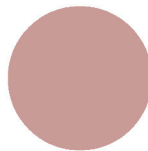

#5E6651

#9BAE8A

#6D3722

#C89B95

The accent colours should be used to add dimension to the visual body of collateral. The accent colours purposefully compete with the primary colours. Preferably, accent colours should not be used in isolation of the primary and secondary colours. However, creative discretion should be applied in conjunction with brand management in the event of wanting to use secondary colours in isolation. Ideal applications of the accent colours can be for data visualisation, icons and supplementary branded collateral.

TYPOGRAPHY

TYPE

APPLICATION

STACK

Playfair Display serves as the primary brand typeface and is mainly applied to **headlines, titles, brand statements, signage, and marketing materials**. Its elegant serif characteristics create a timeless and luxurious aesthetic that strengthens the hotel's upscale positioning.
